Practical-7

Advanced Open Source Framework

B.Sc(IT)[Hons.]

Semester-6

Practical-7

Create a gallery of images.

1. Install WordPress

Download WordPress → Create a database → Run the installation setup → Log in to your dashboard.

2. Choose a Theme

Go to **Appearance → Themes** → Select a free/built-in theme or upload a new one → Activate it.

3. Create Content

Go to **Pages** or **Posts** → Add your text, images, videos → Format using the Gutenberg blocks → Save.

4. Publish

Click **Publish** to make your page or post visible on your website.
