Practical-8 & 9

Install and activate a new theme & create a custom menu and assign it to the theme's menu location. in WordPress

1. Install and Activate a New Theme in WordPress
Step-by-step:

1. Log in to your **WordPress Dashboard**.
2. Go to **Appearance → Themes**.
3. Click on **Add New** at the top.
4. Browse themes or search for one (example: Astra, OceanWP, Neve).
5. Click **Install** on the theme you like.
6. After installation, click **Activate**.
7. Your website will now use the new theme.

2. Create a Custom Menu and Assign It to the Theme's Menu Location

Step-by-step:

1. Go to **Appearance → Menus**.
2. Click **Create a New Menu**.
3. Give your menu a name (example: Main Menu, Header Menu).
4. Click **Create Menu**.
5. Add items to the menu:

   ➢ Pages
   ➢ Posts
   ➢ Categories
   ➢ Custom links
      Select items and click **Add to Menu**.

6. Arrange menu items by dragging them up/down.
7. Scroll to **Menu Settings → Select a Display Location**:

   ➢ Primary Menu
   ➢ Header Menu
   ➢ Footer Menu (depends on theme)

8. Click **Save Menu**.
9. The menu will now appear in the selected location of your theme.
